Directorate / Region:	RMO Pilbara Region	Main Roads or Contractor:	Contractor
EQSafe Event Type:	Damage/Loss	EQSafe Incident Number:	32527
Actual Consequence:	Minor	Potential Consequence:	Major

Incident Short Description:	Truck rollover on way back to depot
------------------------------------	-------------------------------------

What Happened:

On 9 July at approx.16:00, a worker was driving a truck towing a trailer loaded with mobile plant (two rollers) from the site to the depot when the truck has rolled, losing it's load .

Emergency services were called to the scene and the road was closed.

Truck Rollover

Mobile Plant that was loaded onto the truck

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious incident aligns with the Main Roads Critical Risk profile relating to Vehicles and Driving.

Immediate Actions:

Please note that these are generic actions for all to consider in relation to this critical risk (and is not reflective of this specific incident):

- *Ensure workers are fit work*
- *Ensure loads are adequately secured before travel*
- *Raise awareness of the risks associated with fatigue management together with controls to reduce these risks such as taking regular rest breaks and ensuring adequate sleep*
- *Drive to the conditions and avoid distractions while driving.*

Distribution of Notice:	Main Roads Personnel and Contracting Organisations
