

RED BANNER ALERT

SHW Serious Incident (SI) – Preliminary Notice

Date of Incident:	15/08/23	Time of Incident:	9.30pm
Directorate / Region:	Heavy Vehicle Services	Main Roads or Contractor:	Main Roads
EQSafe Event Type:	Injury/ Illness	EQSafe Incident Number:	33324
Actual Consequence:	Moderate	Potential Consequence:	Moderate

Incident Short Description:	Worker hits head and has injured neck, resulting in LTI
------------------------------------	---

What Happened:

At approximately 9.30pm on Tuesday 15th August, the Injured Person (IP) had been conducting random heavy vehicle interceptions and inspections as per Traffic Inspector compliance duties.

The IP and Transport Inspector have intercepted a heavy vehicle, and IP had gone to retrieve tape measure from Inspection vehicle's back pod. The pod door had been slightly open and as IP reached to grab tape measure, they hit their head on pod door. IP continued on with work as usual.

The IP commenced nightshift on Wednesday 16th August and noted that very quickly the neck area become quite stiff and sore, and the work colleague encouraged IP to seek medical assistance.

The IP has presented at his local medical centre at approximately 6.00pm, where a GP has declared him medically unfit for work for three days, resulting in an LTI.

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

Immediate Actions:

Please note that these are generic actions for all to consider in relation to this critical risk (and is not reflective of this specific incident):

- Ensure workers and supervisors are aware of reporting requirements and injury management processes.
- Always be aware of your surroundings and any potential hazards. Avoid distractions and exercise situational awareness.
- Conduct a risk assessment on Inspection vehicles to determine whether pod doors can be lifted higher and that the struts ensure that they are always fully lifted.
