

**RED BANNER ALERT****mainroads**
WESTERN AUSTRALIA**SHW Serious Incident (SI) – Preliminary Notice**

Date of Incident	11 May 2024	Time of Incident	11.45am
Directorate / Region	RMO – Pilbara	Main Roads or Contractor	Main Roads
EQSafe Event Type	Injury / Illness	EQSafe Incident Number	40351
Actual Consequence	Moderate	Potential Consequence	Moderate

Incident Short Description	Worker tore right calf muscle on uneven ground, resulting in LTI
-----------------------------------	--

What Happened
On Wednesday 11 May 2024, the Injured Person (IP) was undertaking sealing works. They exited the work vehicle and walked to the rear canopy to retrieve a shovel. The IP had their right hand on the canopy door to get the shovel. The IP was standing on sloping gravel ground when they stepped/pushed off their right leg and felt their right calf tear. The IP called for assistance via UHF to the leading hand and then notified a Supervisor before driving themselves to local health campus for medical assessment. The Doctor deemed the IP unfit for work until the following week. The IP followed up with a Doctor early the following and was certified fit for light duties. A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.
