

**RED BANNER ALERT****mainroads**
WESTERN AUSTRALIA**SHW Serious Incident (SI) – Preliminary Notice**

Date of Incident	09 June 2026	Time of Incident	11:50 AM
Directorate / Region	OMTID	Main Roads or Contractor	Contractor
Isafe Event Type	Damage	Isafe Incident Number	INC-0279
Actual Consequence	Minor	Potential Consequence	Major

Incident Short Description	Truck and Trailer Rolled Over During Fill Import
-----------------------------------	--

What Happened

Truck was unloading import fill on even, stable ground, when the Spotter noted the trailer was not evenly loaded and instructed driver to lower the bin.

During the attempt to lower the bin trailer, the bin trailer fell 90° onto the ground, which pulled the truck cab onto the driver's side.

The driver climbed out through the passenger door unharmed, with key personnel attending the incident to provide support to the driver and secured the scene.

All import was cancelled, and the truck and trailer were recovered with minimal damage sustained.

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to **Mobile Plant.**
