Directorate / Region	RMO – Kimberley Region	Main Roads or Contractor	Main Roads
iSafe Event Type	Damage / Loss	iSafe Incident Number	INC-0076
Actual Consequence	Moderate	Potential Consequence	Catastrophic

Incident Short Description	Vehicle rollover resulting in serious damage, no injuries reported
-----------------------------------	--

What Happened

A Main Roads vehicle travelling along the Gibb River-Kalumburu Road struck a washout in the centre of the road at approximately 3:40 PM, resulting in a rollover. There were two Main Roads workers in the vehicle at the time of the incident. No injuries were sustained; however, the vehicle was severely damaged.

The incident occurred approximately 230 km from the construction camp and 480 km from Derby. A second Main Roads vehicle travelling behind attended the scene shortly after the incident. The damaged vehicle was righted and secured, and the occupants transferred into the second vehicle.

Given the time of day and location, it was determined that continuing to the construction camp was the safest option. The four workers arrived at the construction camp at SLK 487.50 on Gibb–Wyndham Road at approximately 8:50 PM.

As a precaution, welfare checks were conducted throughout the night to monitor the two workers involved in the incident for any delayed symptoms, illness, or injury.

On Wednesday morning, 6th May, both workers reported to have slept well, and it appears no immediate injuries were incurred. Arrangements were made to transfer them to Kununurra to retrieve another vehicle and seek medical assessment. The damaged vehicle will remain at the incident site for approximately 4 weeks until recovery services are available and road conditions have improved.
