

ITEM	DESCRIPTION
	○ Within a signalised intersection ○ Within 30m of the stop line on the approach ○ Within 30m of the adjacent stop line on the departure ● Closure of any part of a signalised dedicated turning lane. Refer to section 4.1.4 of the Complex Traffic Management Plan for details on signal approvals and impacts.
Proposed lane widths	Refer to the selected Traffic Guidance Schemes for minimum lane width based on the worksite speed limit. Where possible, existing lane widths should be maintained and only reduced where necessary.
Road Safety Barrier	The proposed Traffic Management arrangements does not utilise temporary road safety barrier setups. Where temporary road safety barrier setups are required, a site-specific Traffic Management Plan should be provided with all required details. Where the works requires the removal or replacement of permanent road safety barrier that is preventing a potentially catastrophic outcome the 0922-01532-Complex Plan must be used. Refer to section 4.4 Road Safety Barriers of the Complex Traffic Management Plan for more information.

2.5 Project Representatives

POSITION	NAME	CONTACT DETAILS	
Road Infrastructure Manager	Main Roads Western Australia	Address:	PO Box 333, Northam, WA, 6401
