

9.1.2 During work hours

- Designate and ensure that appropriate work personnel drive through the site periodically to inspect all signs and devices and ensure they are undamaged and comply with the requirements depicted on the Traffic Guidance Schemes;
- Attend to minor problems as they occur;
- Conduct on the spot maintenance/repairs as required;
- When traffic controllers are on the job, ensure they remain in place at all times. Relieve controllers as necessary to ensure attentiveness is retained;
- During breaks or changes in work activities remove or cover any signs that do not apply (e.g. PREPARE TO STOP, Workers symbolic);
- Re-position signs and devices as required by work processes throughout the day and keep records of any changes.

9.1.3 Closing down each day

9.1.3.1 Aftercare is required

- Conduct a pre-close down inspection, allowing time for any appropriate maintenance works;
- Remove any unnecessary signage (e.g. Prepare to Stop, Symbolic Workers);
- Drive through site to ensure no signs and devices are left and the road is left clear.
- Replace any unnecessary signage with appropriate delineation;
- Install barriers and lights where required;
- Drive through site and confirm all signs and devices are operating correctly with no misleading visual cues;
- Record details of inspection and any changes made to layout.

9.1.3.2 Aftercare not required

- Conduct a pre-close down inspection, allowing time for any appropriate maintenance works;
- Remove all signage from the site.
- Drive through site to ensure no signs and devices are left and the road is left clear.

9.1.4 After hours

- Appoint personnel to conduct after dark checks. Replace any signs / devices not working, missing or damaged and record in diary.
- Appoint personnel to conduct checks on non-work days (e.g. weekends). Replace any signs / devices not working, missing or damaged and record in diary.
- The frequency of inspections needs to align with the amount of traffic management on site, weather conditions, vehicle types and volumes, road user behaviour and site specific risks.

9.2 Traffic Management Plan Audits and Inspections

A comprehensive review of this Traffic Management Plan (Refer to front cover) is completed. The Traffic Management Plan may also be subject to a compliance audit undertaken by MRWA at planning and implementation stage.

Documentation of the audit findings, recommendations and actions taken is required, along with copies forwarded to the Project Supervisor and the Road Infrastructure Manager Representative and will form part of the quality management of traffic management implementation within the contract.
