

Non-Complex Traffic Guidance Scheme Selection Checklist

Road Name: _____ Suburb: _____			
Type of work to be undertaken: _____			
Date: _____ Time: _____ Completed By: _____			
Step A – Select an appropriate generic Traffic Guidance Scheme from this document			
If "Yes", refer to Applicable Drawing Series. <i>Note: Some drawings may not be approved for use in the Region, refer to section 7.1 for list of approved TGS.</i>			
Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is a closure of a lane required on a dual (or more) carriageway? (including overtaking and cyclists lanes)			Select appropriate drawing from LC (Lane Closure) Series as below:
Scenario:			Suitable TGS:
Single lane closure required			0922-01531-LC-001 to 003
Dual lane closure required			0922-01531-LC-004 & 005
Closure to extent of overtaking lane			0922-01531-LC-006 to 010
Partial closure to left turn pocket (no detour)			0922-01531-LC-011
Cycle lane closure			0922-01531-LC-012 & 013
Closure from start of overtaking lane			0922-01531-LC-016 to 019
Closure from end of overtaking lane			0922-01531-LC-020 & 021
Closure in middle of overtaking lane			0922-01531-LC-022 & 023
Left Turn pocket restriction with lane closure			0922-01531-LC-028 & 029
Right Turn pocket restriction with lane closure			0922-01531-LC-030 & 031
Partial Left turn pocket closure			0922-01531-LC-032
Partial Right turn pocket closure			0922-01531-LC-033
Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is a closure of a lane required on a single lane road that becomes dual carriageway?			Select appropriate drawing from LS (Lateral Shift) Series as below:
Is a lane width reduction required on a single lane or dual carriageway road where a suitable width can be maintained for all types of traffic?			
Scenario:			Suitable TGS:
Single lane lateral shift required			0922-01531-LS-001 to 003
Dual lane lateral shift required			0922-01531-LS-004 to 006
Access ramp/emergency lane/large shoulder lateral shift			0922-01531-LS-007
Prevent turn lane from forming			0922-01531-LS-008, 009, 012, 013, 014 & 015
Lateral shift approach to median			0922-01531-LS-010 & 011
Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is the works continually moving in a convoy arrangement with NO workers on foot or small plant?			Select appropriate drawing from MS2 (Mobile Scenarios Class 2) Series as below:
Scenario:			Suitable TGS:
Is the vehicle located off the road?			0922-01531-MS2-001
Within the lane, between 1.2m & 3.0m of live traffic lanes.			0922-01531-MS2-002 to 004
Within the lane, greater than 3.0m of live traffic lanes.			0922-01531-MS2-005 & 006
Barrier or obstacle with section of traffic convoy			0922-01531-MS2-007 in conjunction with convoy TGS.
Single lane road, between 1.2m and 3.0m of live traffic lanes.			0922-01531-MS2-008 & 009
Single lane road, greater than 3.0m of live traffic lanes.			0922-01531-MS2-010 & 011
Works are within an access off/on ramp.			0922-01531-MS2-012 & 013
Within the lane, within 1.2m of live traffic lanes.			0922-01531-MS2-014
Works involve kerbside collection or sweeping.			0922-01531-MS2-015
