SHW Serious Incident (SI) – Preliminary Notice

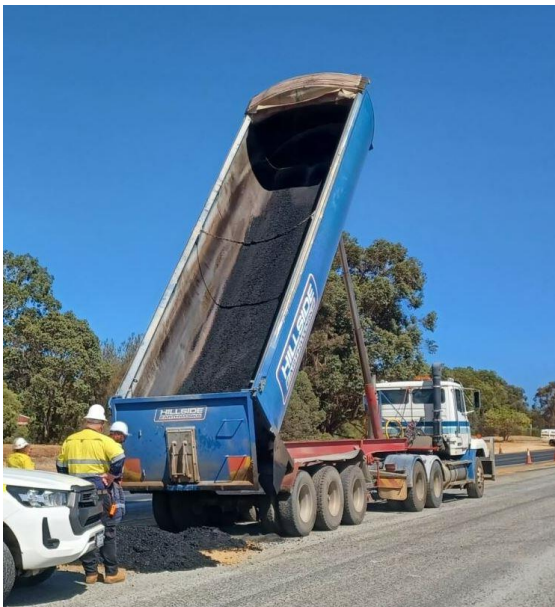

Date of Incident	22 Feb 2024	Time of Incident	0950
Directorate / Region	IDD	Main Roads or Contractor	Contractor
EQSafe Event Type	Injury	EQSafe Incident Number	38293
Actual Consequence	Moderate	Potential Consequence	Moderate

Incident Short Description	Worker struck by asphalt while clearing load from truck
-----------------------------------	---

What Happened

On 22 February 2024, a truck driver (IP) was cleaning the area at the rear of a raised truck body after discharging asphalt material into a machine. While IP was undertaking the task, a large piece of asphalt that has been hung up near the headboard has released and contacted the IP's left leg resulting in a fracture.

An ambulance was called, and IP attended the Regional Hospital for medical attention.

***Asphalt Unloading Activity***

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to **Dropped Objects**
