SHW Serious Incident (SI) – Preliminary Notice

Date of Incident	18 January 2024	Time of Incident	0950
Directorate / Region	IDD	Main Roads or Contractor	Contractor
EQSafe Event Type	Near Miss – Damage	EQSafe Incident Number	37112
Actual Consequence	Minor	Potential Consequence	Major

Incident Short Description	Small Metal Backing Plate falls from Height
-----------------------------------	---

What Happened

On 18 January 2024, a worker was stripping form work from shutters on a bridge and they have removed a backing plate to conduct their task. The backing plate weighs 0.71 kgs.

The worker has placed the plate on the top of concrete barrier and at approximately 0950 they have knocked the plate with their elbow as they have stood up. The plate has fallen approximately eight metres, hitting a parked Agi Concrete Truck before landing on the ground.

The nearest workers were 15m away at the time the plate fell.

Photo of Incident location

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to **Dropped Objects**
