| <b>What Happened</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <p>At approximately 10.30am, whilst assisting in repairing road faults, a maintenance worker (Injured Person – IP) was shovelling materials and has suffered sudden lower back pain.</p> <p>The IP stopped work, notified their Supervisor and presented to Northam Medical Practice for assessment.</p> <p>The Doctor has deemed the IP unfit for work for 7 days, resulting in a Lost Time Injury (LTI).</p> <p>A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.</p> |
