Incident Short Description	Worker rolls vehicle over enroute to a work site
-----------------------------------	--

What Happened

At approximately 6:30am whilst travelling to the work site, the Injured Person (IP) has veered off the road resulting in their car flipping down a ditch and onto its roof.

The IP has contacted their supervisor immediately after the incident, who assessed if the IP required medical treatment. It was determined that the IP was not suffering from any injuries.

However, the IP has presented at a hospital for assessment as precautionary measure. The doctor has confirmed no injuries and cleared the IP to return to work the same day.

The IP retrieved their vehicle, which was not posing a hazard to other drivers.

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to
Vehicles and Driving.
