

RED BANNER ALERT

SHW Serious Incident (SI) – Preliminary Notice

Date of Incident:	16/11/2022	Time of Incident:	06:55am
Directorate / Region:	MWG	Main Roads or Contractor:	Contractor
EQSafe Event Type:	Near Miss	EQSafe Incident Number:	29044
Actual Consequence:	Insignificant	Potential Consequence:	Major

Incident Short Description:	Driver near miss with oncoming train at level crossing
------------------------------------	--

What Happened:

While crossing a level crossing, a worker in a light vehicle became distracted by changing the channel on the UHF radio and was unaware of their positioning on the level crossing. A train on approach signalled the horn and began applying emergency braking. The driver of the vehicle reversed off the level crossing and the train came to a stop past the level crossing.

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to **Vehicles and Driving**.

Immediate Actions:

Please note that these are generic actions for all to consider in relation to this critical risk (and is not reflective of this specific incident):

- Conduct a pre-start inspection prior to operation of vehicle
- Prior to commencing journey, check communication equipment is working and ready for use
- Ensure risks associated with rail are adequately addressed prior to commencement of work on site

Distribution of Notice:	Main Roads Personnel and Contracting Organisations
