

GENERIC DRAWING REGISTER

The following checklist must be used to determine the suitability of the proposed Generic Traffic Management Plan and associated Traffic Guidance Schemes for the site-specific location of works. If any of the question below answer 'Yes' then further approvals or a Site Specific Traffic Management Plan may be required.

Criteria		Yes/No	Approvals
1	Will the proposed Traffic Management Setups be required to be implemented for more than a single shift in any one location without the use of the AC Series drawings?		RTM
2	Does the work area exceed 2km in length?		
3	Do the works involve closing a traffic lane, exceeding 1000 vehicles per hour at midblock or 500 vehicles per hour within 200m of an intersection?		
4	Are there any visibility issues which could affect sight distance or vision of the road user on approach to the work area that are not catered for in the generic Traffic Management Plan?		
5	Will works interfere with the operation of permanent traffic signals? (Flashing amber)		
6	Will the works result in the closure of any part of a signalised intersection turning lane?		
7	Will the works affect path users that cannot be catered for in the generic Traffic Management Plan?		
8	Will the works require a Temporary Speed Limit of 40km/h that meets all the following conditions; 1. Occurs on a multilane road; and 2. Occurs on Freeway or road with a permanent speed limit of 90 km/h or more (or a section of these roads where the speed limit is reduced due to traffic signals); and 3. Has a traffic volume of 15,000 vpd or more.		
9	Will the works meet the following Conditions; 1. Occurs on a multilane road; and 2. Closes or diverts one or more lanes (includes emergency lanes); and 3. Occurs on any Freeway OR road with a permanent speed limit of 90 km/h or more (or a section of these roads where the speed limit is reduced due to traffic signals); and 4. Has a traffic volume of 15,000 vpd or more.		
10	Are the works likely to result in re-alignment of a road section or intersection impacting on a railway crossing?		Rail Authority
11	Will the works be within 300m of a rail crossing and significantly affect traffic flow through the rail crossing?		
12	Do the works involve the closing of a lane whereby oversize vehicles are unable to progress through the site?		MRWA HVS
13	Do the works involve the closing of a lane whereby buses and other public transport are unable to access routes and stops?		PTA
14	Will the works involve a full or partial closure of a major arterial (state road) whereby Main Roads Road Authority Approval has not been sought?		TMCM
15	Will the works involve a full or partial closure of a local road whereby Main Roads and/or Local Government Authority Road Authority Approval has not been sought?		TMCC
