

CONTENTS

1.	Introduction	8
1.1	Purpose and Scope.....	8
1.2	Objectives and Strategies	9
2.	Project Overview.....	10
2.1	Location.....	10
2.2	Project Details and Site Constraints/Impacts	12
2.3	Existing Traffic and Road Environment.....	13
2.4	Overview of Proposed TTM	13
2.5	Project Representatives	14
3.	Risk Management	16
3.1	Risk Classification Tables.....	16
3.2	Generic Risk Register	19
3.3	Site-Specific Risk Register	44
3.3.1	Risk Considerations.....	44
4.	Traffic Management Planning and Assessment	47
4.1	Traffic Assessment and Analysis	47
4.1.1	Traffic and Speed Data	47
4.1.2	Traffic Flow Analysis	47
4.1.3	Temporary Speed Zones	49
4.1.4	Existing Traffic signals.....	49
4.1.5	Impact on Adjoining Road Network	49
4.1.6	End of Queue Treatment.....	50
4.1.7	Portable Traffic Control Devices.....	51
4.1.8	Speed Management	51
4.1.9	Excavations or Above Ground Hazards	52
4.2	Road Users	53
4.2.1	Pedestrians	53
4.2.2	Cyclists	53
4.2.3	Public Transport.....	54
4.2.4	Heavy and Oversized Vehicles and Loads.....	54
4.2.5	Existing Parking Facilities	54
4.2.6	Access to Adjoining Properties/Business	54
4.2.7	Rail Crossings	55
4.2.8	School Crossings	55
4.2.9	Special Events and Other Works	55
4.2.10	Emergency Vehicle Access.....	56
4.3	Night Works Provisions.....	56
4.4	Road Safety Barriers.....	56
4.5	Shadow Vehicles	56
4.5.1	Truck Mounted Attenuators.....	58
4.6	Consultation and Communication/Notification	60
4.6.1	Other Agencies	60
4.6.2	Public	60
4.7	Temporary Pavement Markings	60
4.8	Temporary Traffic Management Requirements.....	62
4.8.1	Short Term Low Impact Setups	62
4.8.2	Class 2 Mobile Convoys	74
4.8.3	Class 3 Mobile Convoys	76
