

10. MANAGEMENT REVIEW AND APPROVALS

10.1 Traffic Management Plan Review and Improvement

This Traffic Management Plan requires reviewing either yearly or at a time where an updated revision of the MRWA Traffic Management for Works on Roads Code of Practice, AGTTM or Australian Standard 1742.3.

10.2 Variations

Two variation forms are attached with this Generic Traffic Management Plan. A template version of the variation form has been provided where additional Site-Specific variations are found within the planning stage. A separate variation to the AGTTM, AS 1742.3 or MRWA CoP form is attached for the two departures required as part of the Generic Traffic Management Plan.

If required, an approval by the Traffic Management Supervisor must be sought, then an on-site variation made, and changes recorded in the daily diary. In an emergency, on-site variations shall be made and recorded in the daily diary, and the **Delivery Supervisor** notified as soon as practicable thereafter.

Where alterations are required to the design of the Traffic Management, Main Roads Code of Practice requires the following steps:

For on-site changes of non-RTM endorsed Traffic Management Plan's (CoP reference 4.2.1)

*'With the exception of repositioning of traffic control devices **within the allowable tolerances** specified in AGTTM, where any on-site changes to a Traffic Management Plan are proposed, such changes **shall be endorsed by a person holding current WTM or AWTM accreditation**. A copy of all documentation relating to the endorsement of the changes shall be held on-site by the person managing the works.'*

10.3 Approvals, Authorisations and Permits

It is necessary to advise all road users of the forthcoming works, the likely timeframe of the works and the possible road conditions due to the works. Advice may consist of the following:

- Main Roads Western Australia (Road Planned Interventions, HVS, etc.);
- Local Governments Authority;
- Utility Service Providers (e.g. Western Power, Water Corp, etc.)
- Public Transport Authority (where impact to bus routes, bus stops and level crossing)
- Other Rail Infrastructure Manager (e.g. Arc Infrastructure).

Any additional approvals must be provided in the Traffic Management Advice by the Traffic Management Assessor or Delivery Supervisor.
