

Rolling block of live lanes required.	0922-01531-MS2-016 to 020
No speed reduction required for vehicle clearances.	0922-01531-MS2-021 to 025

Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is the works continually moving in a convoy arrangement with workers on foot or small plant?			Select appropriate drawing from MS3 (Mobile Scenarios Class 3) Series as below:
Scenario:			Suitable TGS:
Is the work located off the road?			0922-01531-MS3-001
Within the lane, within 1.2m of live traffic lanes.			0922-01531-MS3-002 & 005
Within the lane, between 1.2m and 3.0m of live traffic lanes.			0922-01531-MS3-003
Within the lane, greater than 3.0m of live traffic lanes.			0922-01531-MS3-004 & 006
Barrier or obstacle with section of traffic convoy			0922-01531-MS3-007 in conjunction with convoy TGS.
Single lane road, within 1.2m of live traffic lanes.			0922-01531-MS2-008 & 009
Single lane road, between 1.2m and 3.0m of live traffic lanes.			0922-01531-MS2-010
Single lane road, greater than 3.0m of live traffic lanes.			0922-01531-MS2-011
Works are within an access off/on ramp.			0922-01531-MS2-012 to 015
Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is the works exclusively on a Principal Shared Path or footpath?			Select appropriate drawing from PSP (Principal Shared Path) Series as below:
Is the works likely to extend partially into an existing Principal Shared Path or footpath?			
Scenario:			Suitable TGS:
Work vehicle performing inspection or sweeping.			0922-01531-PSP-001
Closure required where only one direction can be maintained.			0922-01531-PSP-002
Adjacent to with no impacts to PSP.			0922-01531-PSP-003 & 006
Footpath closure require with adjacent footpath for detour.			0922-01531-PSP-004
Footpath closure required.			0922-01531-PSP-005
Pedestrian Management only			0922-01531-PSP-007
Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is the works at or near a Rail Corridor, where a flag person may be required?			Select appropriate drawing from RA (Rail Approach) Series as below:
Scenario:			Suitable TGS:
Lane closure required where only one direction can be maintained (typically 'X' or 'RAIL' approach linemarking).			0922-01531-RA-001 to 004
Single lane closure required (typically 'X' or 'RAIL' approach linemarking).			0922-01531-RA-005 to 008
Lane closure require where neither direction of traffic can be maintained and no detour provided (typically rail hatch marking).			0922-01531-RA-009 to 012
Road closure required and detour provided (typically rail hatch marking on side road)			0922-01531-RA-013 to 020
Traffic Management Consideration	Applicable		Applicable Drawing Series
	Yes	No	
Is a closure of a lane(s) required where only one direction of traffic can be maintained at a time?			Select appropriate drawing from RF (Reversible Flow) Series as below:
Scenario:			Suitable TGS:
Single lane road, lane closure with one direction maintained.			0922-01531-RF-001 to 003, 005 to 007, 017, 018, 033, 034, 046, 047, 049, 050 & 051
Reversible flow through roundabout.			0922-01531-RF-004 & 021
Shuttle flow (local road, no traffic control)			0922-01531-RF-008
