- ## DOCUMENTATION
- DAILY RECORDS OF THE SITE LAYOUT INCLUDING DEVICES, SIGHT DISTANCE, RISK ASSESSMENTS, SIGNS OR TGS, MUST BE KEPT IN A DIARY OR IN WORK SHEETS (DAILY DAIRY). ANY SIGNIFICANT DEPARTURES FROM, OR ADDITIONS TO, THE SIGNS AND DEVICES INCLUDED IN THIS DIAGRAM SHOULD BE NOTED AND APPROVED.

The diagram illustrates the use of a flashing corner device. At the top, a black rectangle represents the vehicle's corner, with four yellow circles indicating the flashing light locations. Below this, the text "WORK VEHICLE" is written. In the center, a top-down view of a vehicle shows a yellow flashing corner device mounted on the rear. To the right, a worker in a yellow safety vest and hard hat is shown. A line connects the worker to a small icon of the flashing corner device on the ground, which is also connected to the vehicle's rear by another line. The text "WORKER" is placed next to the worker.
