SHW Serious Incident (SI) – Final Notice

Date of Incident:	9 July 2023	Time of Incident:	16:50
Region / Directorate:	RMO Pilbara Region	Main Roads or Contractor:	Contractor
EQSafe Event Type:	Damage/Loss	EQSafe Incident Number:	32527
Actual Consequence:	Minor	Potential Consequence:	Major

Incident Short Description:	Truck rollover on way back to depot
------------------------------------	-------------------------------------

Executive Summary:

On Sunday 9 July, a truck driver (IP) engaged through a subcontractor to carry out sealing works on the Karratha-Tom Price Road had successfully completed their day shift and was travelling North on Red Dog Highway back towards the subcontractor depot.

At approximately 16:50, 70kms into the return journey travelling at 90-95kph the IP has become momentarily distracted and has navigated the truck & trailer slightly to the left of side of the road reserve resulting in a loss of traction. The IP has then over corrected resulting in the trailer carrying two items of plant to roll over & the truck to tip on its side.

Damage was caused to the truck, trailer & two items of plant being transported, with no injury sustained by the IP.

The scene was immediately preserved, the event was reported and attended by representatives of the subcontractor who coordinated the scene to assist with control and recovery of the plant. Traffic Control was set up to assist with coordination of traffic around the event & remained in place overnight.

An ICAM investigation was carried out to determine contributing factors and adequate controls to assist in prevention of recurrence.

Incident Photos:

Event Scene

Damaged Plant

Truck tipped on side

Contributing Factors:

- IP Navigating truck too close to the edge of the road.
- Distraction/Pre-occupation as the IP has momentarily stopped paying attention to where the fog line of the road reserve is.

Corrective Actions:

- Ensure that the pre-start meetings capture & document all known hazards & relay the event.
- Distribute weekly WHS topic on Safe Driving.
- Communicate findings via Toolboxes and Lessons Learnt.

Additional Issues/Learnings:	
 Critical Risk: This serious potential incident aligns with the Main Roads Critical Risk Profile relating to Vehicles and Driving.	
Distribution of Notice:	Main Roads Personnel and Contracting Organisations
