Directorate / Region	MWG RMO	Main Roads or Contractor	Contractor
EQSafe Event Type	Procedure Breach	EQSafe Incident Number	35212
Actual Consequence	Insignificant	Potential Consequence	Major

Incident Short Description	Worker within 10m of operational mobile plant
-----------------------------------	---

What Happened

During site audits, a worker was observed walking on the live traffic lane behind an excavator and then into the work lane on the blind side of the operator.

The excavator operator raised their bucket and started slewing in the direction of the worker on foot whilst they were still walking past within 10m of the machine.

It did not appear any communications took place between the worker and the excavator operator.

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to
Mobile Plant
