WESTERN AUSTRALIA

SHW Serious Incident (SI) – Preliminary Notice

Date of Incident	16 January 2024	Time of Incident	0550
Directorate / Region	RMO (GSR)	Main Roads or Contractor	Contractor
EQSafe Event Type	Injury/Illness	EQSafe Incident Number	37013
Actual Consequence	Minor	Potential Consequence	Catastrophic

Incident Short Description	Crew truck lost control and rolled.
-----------------------------------	-------------------------------------

What Happened

A spray seal crew truck was travelling on the Denmark - Mount Barker Rd, from Mt Barker towards Denmark. The truck has lost control on a bend, travelled across the incoming lane, and impacted the road shoulder.

This has resulted in the truck overturning once, landing back on its wheels. The driver and single passenger have reported no serious injuries.

The driver and passenger have been taken for medical assessment and drug & alcohol testing. The truck has been recovered and is being transported back to Bunbury.

Final position of truck after rolling.

A formal ICAM investigation has commenced. Once completed, the lessons learnt will be communicated/shared through a final Grey Banner Alert as soon as practicable.

This serious potential incident aligns with the Main Roads Critical Risk profile relating to **Vehicles & Driving**
